## PROFILE

I am a versatile employee, bringing with me a variety of skills and an enthusiastic approach, which I feel would be an asset to your company.

I have 3 years of dog daycare and supervisory experience and 4 years' experience in animal rescue. I've been a dog parent for close to 20 years, and have fostered many dogs (both short and long term).

As a Soi Dog volunteer I have experience with fearful and challenging dogs. I advocate R+ training methods when supporting adopters with their new family member during the very crucial first 3 months.

In my current dog daycare position I am responsible for a large numbers of dogs as well as being in charge of assessing and training daycare employees.

## INTERESTS

When not working or volunteering for dog charities, my free time revolves around spending time with my husband and our 2 rescue dogs (1 is a tri-pawed street dog rescue; the other was rescued from the illegal dog meat trade – both from Thailand). I also enjoy vegetarian cooking, pet photography, hiking, and searching for the perfect red Swingline stapler.
